Attending the Napco preshow is always an enjoyable event for my husband and me. Being able to see the products in person, gives us inspiration on how to create displays for the upcoming seasons.

One of our highlights is our annual buying trip to Napco in January, to see all the wonderful new holiday and everyday products and displays. We decorate our shop utilizing the fantastic ideas we see in their showrooms... You will never regret making a decision to take advantage of what Napco is offering you!

After seeing all that is offered in the showroom, it was good to have the rest of the night to think about all the different products offered. It's also really nice to be able to buy for the whole year, saving us very valuable time.
